“Every day is an opportunity to improve, even if it is only by 1%. It's not about being invincible; it's about being unstoppable. - KAIZEN”

Profile

I am a final-year Computer Science and Engineering student at the University of Antwerp, specializing in Software Engineering. My passion for computer science began at the age of 15 when I started assembling computers for clients, sparking my interest in both hardware and software. This curiosity evolved from building simple calculators through YouTube tutorials to pursuing a comprehensive computer science program at the University of Antwerp.

I have gained professional experience as a full-stack developer at Turnet IT and have worked on a variety of school and personal projects. I am enthusiastic about exploring advanced technologies, tackling challenges, and contributing to innovative solutions. A quick learner and collaborative team player, I value the exchange of knowledge and am always eager to expand my skills.

Education

University of Antwerp

B.S. IN COMPUTER SCIENCE AND ENGINEERING

- Specialization in Software Engineering.

Antwerp, Belgium

Sep. 2020 - Present

Talentenschool Turnhout

MULTIMEDIA

- Learned the basics of multimedia design and development.
